NTUNHS International Programs

About NTUNHS

Established in 1954, the National Taipei University of Nursing and Health Sciences (NTUNHS) is renowned for premier nursing and healthcare education in Taiwan and Asia. Collaborating globally, NTUNHS offers diverse pathways for international elites. We welcome high achievers to join us, as NTUNHS is the optimal choice for your educational journey.

In 2023, we are proud to be ranked 62nd globally, 12th in Asia, and 1st among national universities in Taiwan in the QS World University.

This brilliant and proud achievement is a microcosm of the development of nursing and technical education in Taiwan.

About College and Programs

Now

We have 5 English-taught Programs

International Nursing Master of Science Program

International Master of Science in Nurse-Midwifery Degree Program

International Sport Science and Smart Health Master's Program

Graduate Institute of Artificial Intelligence and Big Data in Healthcare

International Nursing PhD Program

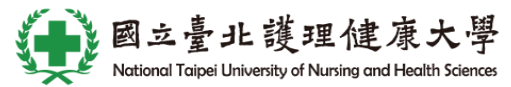

NTUNHS comprises four colleges: **Nursing, Health Technology, Human Development and Health, and Smart Health Care Interdisciplinary**, with 14 departments and programs covering health care from birth to end of life. NTUNHS is dedicated to cultivating health care and management professionals. Here are the key milestones of our fully English-taught international programs:

- 2007: **International Nursing Master of Science Program**
- 2010: **International Master of Science in Nurse-Midwifery Degree Program**
- 2017: **International Nursing PhD Program**
- 2018–2023: **Master's Program in Health Technology**
- 2020–2023: **Master's Program in Sports Science**
- 2023: **International Foundation Program for Long-term Care with Mandarin education**
- 2025: **International Sport Science and Smart Health Master's Program**
- 2025: **Graduate Institute of Artificial Intelligence and Big Data in Healthcare**

International Nursing Master of Science Program

About College and Program

The School of Nursing at NTUNHS boasts over 50 faculty members holding PhD degrees. NTUNHS is the only university in Taiwan that offers both academic and vocational nursing training programs, and it is recognized as a leading institution in the field of professional nursing.

Our program focuses on students' learning goals, aiming to develop them into competent researchers and academics through advanced courses like evidence-based practice and diverse resources, which are key strengths of our School of Nursing. We foster a supportive environment tailored to students' needs, guided by excellent faculty and staff. Extracurricular activities, such as goal-oriented visits and social clubs, enhance students' competencies, ensuring a holistic learning experience and successful academic outcomes.

About the Course

The graduation requirement credits **30 credits**. Duration of Study **2 to 4 years**.

Required Course	Elective Course
<ul style="list-style-type: none">• Nursing Theory• Advanced Applied Biostatistics• Health Assessment for Advanced Practice Nursing• Research Methodology• Advanced Practice Nursing I• Field Experience of Advanced Practice Nursing• Master thesis	<ul style="list-style-type: none">• International Health Policy and Practice• Curriculum Design & Development in Nursing• Data Management & Statistical Analysis• Public Health• Leadership and Management in Health Care Systems• Transcultural Health Care• Evidence- based Health-Care and Application• Independent Study

About Qualifications and Application

Qualifications

1. Have a bachelor's degree in fields related to nursing or midwifery from foreign universities and colleges approved by R.O.C. (Taiwan) Ministry of Education.
2. Applicants from countries where English is not the native language, or those who have completed their bachelor's degree at a non-English speaking academic institution, are required to have evidence of English proficiency equivalent to IELTS 5.5 or TOEFL iBT 72 or CEFR B2 level above or equivalent certificate.
3. Foreign students should carefully read the MOE Regulations "Regarding International Students Undertaking Studies in Taiwan" for application eligibility.

Application

1. NTUNHS Application online system opening period: **Jan. 1st – Mar. 31st**

**This is for the 2025, please follow each year admission schedule, NTUNHS reserves the right to revise relative policy.*

2. Required Documents:

* Applicants should upload all the required documents to NTUNHS online application system or post it to school address. Moreover, applicants should make sure all documents are not illegible or blurry.

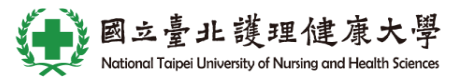

- ☐ NTUNHS Application form
- ☐ NTUNHS Health examination form
- ☐ College diploma/ certificate & all college-level official transcript (English/Chinese version)
- ☐ 2 letters of recommendation
- ☐ Study plan / research plan
- ☐ A copy of the Taiwan Scholarship application form (if applicable).

- ☐ Evidence of English proficiency
*Please apply IELTS or TOEFL test report from official website
- ☐ CV/ Resume and other supporting materials
- ☐ A photocopy of passport
- ☐ Financial statement (needs to be greater than USD\$2500): Financial statements must be obtained from a bank, and the account must be owned by the student or the sponsor, who must attach a separate sponsorship statement and Financial Sponsor Letter.

▼ Except the dissemination, promotion and assist international students in necessary procedures to Taiwan, National Taipei University of Nursing and Health Sciences has not outsourced the admission process with agencies. ▼

International Master of Science in Nurse-Midwifery Degree Program

About College and Program

Our department comprises highly respected professionals in both academia and industry, with expertise in obstetric nursing, midwifery, and high-risk pregnancy care. They excel in academic research and are actively engaged in industry-academia collaboration and professional services, fostering close practical exchanges with both academic and industry sectors.

The Master of Science in Nurse-Midwifery program aims to enhance students' professional knowledge and skills in nurse-midwifery. It offers advanced education in midwifery, as well as guidance and counseling. The program emphasizes both academic study and operational management to prepare researchers and leaders committed to addressing children's and women's health issues. By strengthening clinical midwifery human resources and promoting clinical studies, it strives to advance the field and improve health outcomes.

International Sport Science and Smart Health Master's Program

About College and Program

國立臺北護理健康大學
National Taipei University of Nursing and Health Sciences

This program is dedicated to cultivating high-level professionals in sports health and smart technology. It emphasizes applied sports physiology, exercise science, interventions for special populations, health promotion, smart sports technology, and the design and development of assistive sports devices. The program equips students with a strong foundation in theoretical knowledge and practical skills.

By building a strong foundation in sports science and health promotion, students are equipped to excel in both applied practice and academic research. This comprehensive training enhances students' expertise in sports science, health development, and smart health technology, seamlessly integrating vocational education with practical application.

Graduate Institute of Artificial Intelligence and Big Data Healthcare

About College and Program

The combination of artificial intelligence and big data analysis is revolutionizing healthcare practices and business models. This synergy has become a promising prospect for the industry. Consequently, the demand for cross-disciplinary collaboration between healthcare and technology has never been more urgent. To address this, the Graduate Institute of Artificial Intelligence and Big Data in Healthcare (AIBDH) was established. Leveraging the excellency of National Taipei University of Nursing and Health Sciences (NTUNHS) in healthcare education, we are poised to meet the needs of national policy, industry development, and talent cultivation.
